

# Parents' voices count. Make yours heard.

**Parents with Child Safety experience in the past 5 years in Queensland are invited to take this survey.**

**The survey is anonymous** — you cannot be identified.

An independent group (the Social Research Centre) is running the survey. They are not allowed to share your individual survey answers with Child Safety.

The survey asks about your experience.

The information collected from the survey will be used to improve things for parents.

**Survey closes 31 May 2025.**
